ABSTRACT

PROJECT NAME: TOURISM ALAPPUZHA

System Overview: The Main objective of this Tourism Alappuzha project is to make the travel easy and comfortable for the users in Alappuzha and this project is to reduce the manual operation required to handle payments, check availability of houseboat, booking, and food service.

The software is being designed in such a way that all the details related to every aspect of tourism will be available separately and the customers will not have to go through any of the problem. They just have to click once and all the details will get available to them. In this project, we have three modules, Admin, Guest user, Registered user.

This system provide good and effective information about the Alapuzha places they want to visit. This helps the users by saving lot of time and providing best tour packages .The main purpose of Tourism Alappuzha is to provide a convenient and easy way for customer to book hotels and houseboat for tour purposes. This System will provide display platform in where a tourist can find their Alappuzha tour places according to their choices. This System display attractive tour places.
