Table number : 1

Table name   : tbl_reg

Primary Key   : reg_ id

Foreign Key   : district_id

Field name	Type	Size	Description
reg_ id	integer	10	ID of the user
name	varchar	20	Name of the user
address	varchar	50	Address of the user
phone	integer	10	Phone number for contact
district_id	integer	10	ID of the district
email	varchar	20	Email for contact and notification
username	varchar	30	Name of the user
password	integer	30	Password of the usr
status	varchar	10	Status

Table number : 2

Table name   : tbl_houseboat

Primary Key   : houseboat_ id

Foreign Key   : fees_id

Field name	Type	Size	Description
houseboat_ id	integer	10	ID of the houseboat
Name	varchar	20	Name of houseboat
Image	varchar	200	Image of houseboat
Short_desc	varchar	100	Short description
no_of_rooms	varchar	10	Number of rooms
Max_passenger	varchar	30	Maximum passenger capacity
fees_id	integer	10	Price of the houseboat
Status	varchar	20	Current status of houseboat

Table number : 3

Table name   : tbl_ Fees

Primary Key   : fees_ id

Foreign Key   : houseboat_id

Field name	Type	Size	Description
fees_id	integer	10	ID of the fees
houseboat_id	integer	10	ID of the houseboat
Name	varchar	30	Name of houseboat
Price	integer	30	Price of houseboat

Table number : 4

Table name   : tbl_district

Primary Key   : district_ id

Field name	Type	Size	Description
district_id	integer	10	ID of the district
district_name	varchar	10	Name of the district
Status	varchar	20	Status

Table number : 5

Table name   : tbl_feedback

Primary Key   : feedback_ id

Foreign Key   : reg_id

Field name	Type	Size	Description
feedback_id	integer	10	ID of the feedback
feedback	varchar	200	Feedback
reg_id	integer	10	Register id
status	varchar	10	Status

Table number : 6

Table name   : tbl_booking

Primary Key   : book_ id

Foreign Key   : reg_id, houseboat_id

Field name	Type	Size	Description
book_id	Integer	10	booking id
Reg_id	Integer	10	ID of the user
houseboat_id	Integer	10	ID of the houseboat
Fname	varchar	10	Fullname
adults	integer	10	Number of adults
childrens	integer	10	Number of childrens
Room	varchar	10	Number of rooms
Check_in	Date	30	Check in date
Check_out	Date	30	Check out date
Status	varchar	30	Status of the houseboat

Table number: 7

Table name   : tbl_food item

Primary Key   : item_ id

Foreign Key   : category_id

Field name	Type	Size	Description
Item_id	integer	10	ID of food item
Name	Varchar	30	Name of the food item
Category_id	Integer	20	Category of the food
Description	Varchar	100	Description of the food
Type_id	integer	10	Type of food

Table number : 8

Table name   : tbl_ price

Primary Key   : price_ id

Foreign Key   : item_id

Field name	Type	Size	Description
Price_id	Integer	10	ID of the price
Item_id	Integer	20	ID of the food
Category_id	Integer	30	Categoy of food
Price	integer	30	Price of the food

Table number : 9

Table name   : tbl_category

Primary Key   : category_ id

Field name	Type	Size	Description
Id	Integer	10	ID of the category
category	varchar	20	Vegetarian or non vegetarian

Table number : 10

Table name   : tbl_Type

Primary Key   : Type_ id

Field name	Type	Size	Description
Type_Id	Integer	10	ID of the Type
types	varchar	20	Breakfast,Lunch,Dinner

Table number : 11

Table name   : tbl_place

Primary Key   : place_ id

Field name	Type	Size	Description
place_id	integer	10	Id of the place
name	varchar	20	Name of the place
description	varchar	200	Description
image	varchar	200	Image of the place
location	varchar	200	Place location

Table number : 12

Table name   : tbl_tourpackage

Primary Key   : pack_ id

Field name	Type	Size	Description
Pack_id	integer	10	ID of the package
Pack_name	varchar	100	Name of the package
Pack_type	varchar	200	Type of the package
Pack_location	varchar	50	Location
Pack_features	varchar	250	Features of the package
Pack_details	varchar	500	Package details
Pack_image	varchar	100	Image of tour place
status	varchar	10	status

Table number : 13

Table name   : tbl_tourbooking

Primary Key   : booking_ id

Foreign Key   : Pack_id

Field name	Type	Size	Description
Booking_id	integer	10	ID of the Booking
Pack_id	varchar	100	ID of the package
Useremail	varchar	200	Email id of the user
From_date	varchar	50	Tour booking from date
To_date	varchar	250	Tour booking to date
Reg_date	varchar	500	Registration date
status	varchar	10	status

Table number : 14

Table name   : tbl_payment

Primary Key   : payment_ id

Foreign Key   : Reg_id

Field name	Type	Size	Description
Payment_id	integer	10	ID of the payment
Reg_id	integer	10	ID of the user
Card_type	varchar	20	Card type
Card name	varchar	20	Name of cardholder
cvv	integer	50	Cvv number
Cardno	varchar	20	Card number
text	varchar	100	Expiry date
balance	varchar	255	Advance amount
status	varchar	10	Status
